

Selektor 1

Model SS1100-S

Selektor 1

Fixed percentage random search selector

Simple but effective - DETER & MONITOR

- Battery operation (3 x AA size, supplied)*
- Clear indication of SEARCH and PASS with daylight visible lights and audible tones
- Portable or fixed installation on bracket (supplied).
- Desk mount, wall mount or hand held
- Large 50mm pushbutton
- Search percentage ratio adjustable by internal switches
- Search settings from 0 to 100% in 0.5% steps
- Random selection is guaranteed to be totally unpredictable
- Also available in versions with 'CHECK/PASS' labelling or No text/caption on indicator light bars**

Selektor 1 is ideal for use in a "stop and search" theft prevention policy to eliminate losses from warehouses, shops or factories

How it works

- Everyone passing through the control point pushes the button
- A red light and high tone indicate that you have been selected
- A green light and a low tone indicates that you have not been selected on this occasion
- If you know you could be stopped, you won't take the risk!

Model SS1100-C

Model SS1100-N

* Optional International plug in mains power adaptor also available

** Use without captions in variable rolls, or apply your own custom captions (Non-English languages, organisation specific selection etc.) created with widely available label printers such as Brother P-Touch range using Black Text on Clear Background tape (TZ111 (6mm wide) and TZ121 (9mm wide) tapes are ideal).
